Dear Ron

PM 1268 Finland Divisional
Our File: 29957A

Further to my letter of 1st February, our associates have reported the filing of a response and amendment, and a copy is enclosed.

The claims of this divisional application are limited to the removal of nicotine from a solvent, which means that only Fig.2 of the present specification is relevant to the claimed invention. Rather than remove Fig.1 from the specification, which would involve considerable changes in the text, our associate has retained Fig.1 and added a comment to the effect that it is not in accordance with the invention claimed in this application.

Yours sincerely

J.H.Bass
